EXPERIENCE

Pepper Media Holding GmbH, Berlin — *Front-end Developer*

DECEMBER 2017 – NOW

Maintained Pepper platform and developed new features with Vue, Vuex and Vuetify.

Reported task updates in Jira and daily scrum sessions. Contributed in code reviews.

Mentored a junior front-end developer regarding the codebase, ways to learn and adapt to in-use technologies.

Torob.com, Tehran — *Senior Front-end Developer*

SEPTEMBER 2016 – OCTOBER 2017

Developed a new responsive design. Implemented and improved SEO, Google Analytics and website performance and optimisations.

Implemented React.js and Server-Side Rendering using Next.js.

Managed and mentored an onsite and a remote developer.

Good People Co., Kuala Lumpur — *Web Developer*

JULY 2015 – AUGUST 2016

Developed and maintained HSBC Malaysia Smart Privileges microsites using Jade (Pug), SCSS, Bootstrap, JS, Grunt, Node.js, Git.

Created cross browser responsive layouts for various screen sizes.

DBY Creative House, Kuala Lumpur — *Front-end Developer*

MAY 2011 – JUNE 2015

Implemented designs on Joomla, WordPress and Magento themes.

In the first year, I've worked with HTML5, CSS3 and JS libraries like jQuery. May 2012 onwards works have been project based.

Arayeh, Rasht — *Web Designer, Developer & Instructor*

JUNE 2004 – DECEMBER 2009

Created and maintained various small to medium sized websites from ground up.

Occasionally taught young adults on 'how to make websites' in private sessions.

EDUCATION

APU, Kuala Lumpur — *B.Sc. (Hons) Web Media Technology*

JULY 2012 - APRIL 2016

Final Year Project: AGROMET Data Visualisation (charts, tables and diagrams)

Notable subjects: Software Analysis & Development, Software Development Methodology, ASP.NET / C#, MSSQL, XML & Web Services, HCI & Usability, Design Principles
